Part B for 1927

SUBJECT

Scheme for Water Supply to Dindigul

To the Chief Engineer
No. 2195/20-10-27

Request the Government
to the above

OFFICE OF THE MUZRAI COMMISSIONER
IN MYSORE

D O C 244/27-28 8 NOV 1927 Bangalore, 5th November 1927

MUZRAI 0879 L 2217

Dear Mr Srinivasa Iyengar,

I understand that unofficial file re water sup to Viduraswatha, Goribidnur Taluk has been returned to you with this office No C 244 dated the 5th September 1927 with the opinion that half the cost viz , Rs 8500/- may be spared from the funds of the institution for the water supply scheme proposed by the Sanitary Engineer

I visited the place yesterday and found that the -- Industries Department was sinking some trial wells The -- scheme is a costly one There are other urgent needs of - the institution which are to be immediately attended to The institution had only Rs 10232-10-4 at its credit on -- 30th June 1927 and it is impossible to spare such a large - sum as Rs 8500/- for this purpose

The local conditions are such that water can be tapped easily All round there are irrigation wells The river South Pinakini flows close to the temple It would be quite easy to supply all the water needed at a cost not exceeding Rs.2000/- as it is easy to put curb wells Before committing

the institution to this heavy charge, I beg to represent to Government that the matter may be reconsidered and some cheap scheme devised Ordinarily the pilgrims have no difficulty for the water from the well already existing - or the land and if there are a couple of wells more and these are disinfected, outbreaks of epidemic diseases - can be kept in check even during Jatras

Yours sincerely

To

P Srinivasa Iyengar, Esq B A , B L ,
Secretary to the Government of His
Highness the Maharaja of Mysore,
Financial Department

the spread over a period of 4 years, there will be no difficulty in financing either of the smaller schemes or of the 4-yr. one. Brought round to the ci acct with the alloy Commr's permission 1/10/27

The Mus Dept may agree to meet half the cost of the Water Supply Scheme. I do not think the order sanctioning the Scheme need be issued from Mus Dept. The Pub Dept will I believe carry out the Scheme & the order may issue from that Dept or the Local Self Govt Dept.

I would suggest a ref to Dir of P W with a view to find out if the bore-holes may not be put in here and the cost of the Scheme reduced from the report of the Ese Engineer it would appear that the Conditions of well sinking at these places are not difficult and that water is also found at about 30 ft below the surface.

Some experiment of this kind might be made the wells suggested by this Engineer and if bore holes can equally well serve the purpose the cost may be much reduced

The Govt Engr and the Dir of P W. may Consult and come to some

To The Secretary to Govt. P.W.D.

Sir,

I with reference to your D.O. letter No. L 21967 Mal 467-27-1 dy 20-10-27 regarding the water supply to Vidyaranyapuram in the Coimbatore Taluk, I am directed to state that two boreholes have been made in the locality and a pump-house has been built to which the water from the boreholes of the Head Works is to be supplied to meet local requirements.

The question of the most economical course to be followed will be considered after

I have the honour to be,

Sir,

Your most obedient servant,

for Secretary to Government.
